

*We believe everyone should have the opportunity to remain in their home and stay connected to their family, friends and local community*

Every carer who joins our team is qualified, experienced and possess' a valid police check. Carers arrive at your door smiling, happy and with the energy to provide the best possible care.

We are available today to discuss your situation and assist you in finding a solution.

28 years ago a group of like-minded caring individuals decided to offer solutions for people to remain living independently in their homes. Better Living Homecare was born.

We at Better Living believe everyone deserves to live the best life they can. As a group we are passionate about working with families and individuals to find solutions to improve lives.

Sometimes even a small amount of support can make a significant difference to a person's independence and quality of life.

We work hard to ensure that the support is skilled, well matched and culturally relevant.

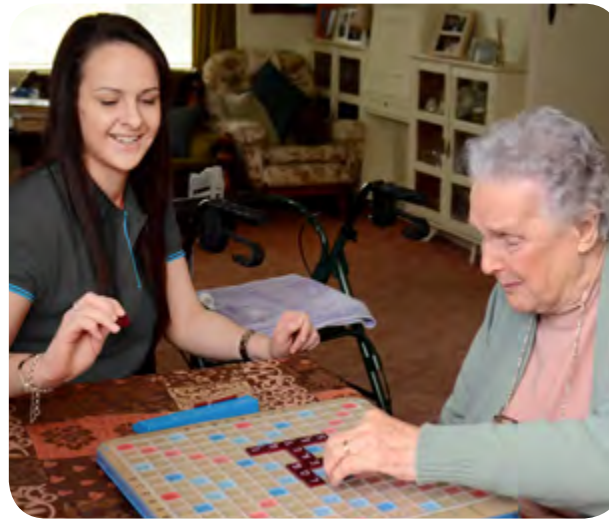

***Do you require assistance with personal care, home care or community access for yourself or a loved one?***

We are available today to discuss your situation and assist you in finding a solution.

***Better Living Homecare provide a level of care to suit each individual's needs.***

***We offer:***

**Personal Care** – Bathing, dressing, grooming, continence management, assistance with mobility, assistance with eating.

**Home Assistance** – Shopping, laundry, meal preparation and light housework.

**Respite** – A chance for carers/family members to take a break for an hour, extended periods or overnight.

**Companionship and Outings** – Feel safe and supported while staying connected to your community. Attend appointments, run errands, or simply enjoy a coffee and a chat.

**Palliative Care** – Qualified staff with a positive approach to providing comfort whilst maintaining dignity and respect.

**Dementia Specialists:** Our experienced staff are equipped with the skills and knowledge required when providing care to people with dementia. By using a positive approach and good communication our staff strive to make everyday a positive experience for our clients.

***“Mum is in the early stages of dementia and the assistance and understanding Better Living Homecare provided has helped us enormously”***
